

# Simple Sew Bookmarks

## Supplies

- Ribbon (length depends on your book size)
- Buttons
- Hair elastic
- Sewing needle
- Sewing thread
- Pins
- Scissors

## Instructions

1. Choose the ribbon, button and elastic that you want to use to make the bookmark.
2. Take your hair elastic and fold your ribbon end over it.
3. Pin the folded ribbon together (make sure the pin is even!)
4. Thread your needle, tie off, and sew just above or below the pin
5. Measure the ribbon by closing the book with the ribbon inside. Bring both ends to the front cover and cut, with an inch or so of space (for the elastic to reach over to the button.)
6. Sew your button onto the other end of the ribbon.
7. You've just made yourself a bookmark!
