Like the book, the film follows Mr Fox as he marries and settles down. Later in life, he wishes to go back to the more adventurous and reckless fox he was before settling down. He plans a heist to steal from three famous farmers, and when they retaliate, chaos ensues.

What drew you to this tv show?
I've been watching the movie since I was a kid, but what I love now about it is the stop-motion animation that the film is created with.

Did it remind you of something that you've previously watched or read?
Fantastic Mr. Fox is so unique that the only thing it can be related to is the book on which it is based and shares a title with. The plot is so well-thought out and intricate and the characters are so lovable and different from each other.
One possible answer is Ocean's 11, because both movies feature George Clooney as a protagonist planning a heist.

To whom would you recommend this movie?
I would recommend this movie to people of all ages because it is funny and entertaining. I think all kids should see it at least once because it's become one of my favorite movies over the years. It has action, sentiment, and hilarious moments. The movie is also great to re-watch as you get older, because there tends to be deeper meanings that adults can appreciate.

Overall, did you like it and would you recommend it to others?
I would absolutely recommend this to others. The animation is beautiful, the cast is full of A-list actors who do an incredible job at capturing their character, and the plot is exciting. It is great for people of all ages.

Anything else that you would like to add to this review? What made you choose it? Did you like the cover? Was it recommended to you? Did you find it at the library?
This was the first Wes Anderson movie I've seen, and I have since watched several of his movies and plan to watch more. He is such a talented creator!
