Harry Potter and the Chamber of Secrets is the second installment in the notorious Harry Potter series.

### **Give a summary without spoilers!**

Following the first Harry Potter book, the Sorcerer's Stone, Harry returns to his aunt and uncle's house for the summer. Harry longs to be back at Hogwarts School of Witchcraft and Wizardry. He is missing his new friends he met there, Ron Weasley and Hermione Granger. Harry has been sending letters to them for quite a long time and they haven't responded. Harry did not want to spend his summer with the Dursley's. They were cruel people towards him and they did not like Harry one bit, and neither did Harry. Harry soon finds out why his friends weren't receiving his letters. While he was in his room, a magical creature (a house-elf) named Dobby appears in his room. Harry is astounded by this and he doesn't know what to do. Harry quickly finds out that Dobby had been stopping Harry's letters to Ron and Hermione. Dobby warns Harry to not go to Hogwarts this year as a threatening danger is lurking in the school. Harry does not heed this warning and he still goes on to the school. As Harry begins his second year at Hogwarts, he will encounter new mysteries, menacing foes, and a strange chamber; one that contains a lurking danger inside that could ruin the whole school...

### **What drew you to this book?**

After reading the first book in the Harry Potter series, I knew I had to read the second one as well. The second book has been recommended as many peoples' favorite Harry Potter book. Also after reading the summary on the back, it sounded like an appealing book to read!

### **Did it remind you of something that you've previously read?**

This book reminded me of another fictional and fantasy book series called Percy Jackson. Percy Jackson is not really based on magic and wizardry but it is based on mythology. Both main characters in Harry Potter and Percy Jackson are very similar and they encounter similar concerns in their story line.

**To whom would you recommend this book?**

I would recommend this book to anyone who is enjoying the first Harry Potter book. The second one is even better with new mysteries and appealing encounters. It also is a very interesting book.

**Overall, did you like it and would you recommend it to others?**

Overall I liked this book and it was very enjoyable. I understood the whole story line and the plots were very detailed and interesting. The main idea of the story was put through and it was a very put together book by J.K. Rowling.

**Anything else that you would like to add to this review? What made you choose it? Did you like the cover? Was it recommended to you? Did you find it at the library?**

The cover was very appealing to me and the summary on the back as well. I didn't find this book at the library but I know for sure it is there. If you are looking to read this book then you can find it comfortably and efficiently.
